Thanks! I'm here at my desk (despite the bad D.C. weather) this morning, looking forward to the call.

Hi Holly,

I just wanted you to know that Roberto will probably place the call from his home.

Subject: Inquiry into Allegations

Dear Dr. Peccei:

I have received a complaint of scientific research misconduct involving an Office of Naval Research (ONR) grant, "Using Acoustic Cavitation to Produce Thermonuclear Fusion" (N00014-05-1-0459) that we awarded to your institution. Specifically, the complainant alleges that Dr. Rusi Taleyarkhan, Purdue University, as an active participant in

this grant, fabricated results of "bubble fusion" research.

We are aware that there are numerous published news articles concerning this matter. Many of these articles mention an inquiry that was conducted at Purdue University. Most recent articles mention the possibility that two separate inquiries were conducted.

I am preparing a letter to you, and am requesting copies of reports that have been conducted, to date. And, if no inquiry has been conducted, we request that one be initiated.

I would like to touch base with you regarding the above. I can be reached at 703-696-0989 or by email response. Thank you in advance,

Holly Adams
