

## News & Research

### "Cold Fusion" Rebirth?

ACS  
March 23, 2009

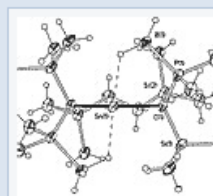

Pam Boss

New evidence for existence of controversial energy source.

### Tin and Lead Carbene Analogues

Organometallics  
March 2009

Keith Izod

Stannocene and plumbocene react with a complex compound to give seven-membered stannylene and plumbylene rings stabilized by B-H-metal interactions.
