### WALKING THE PLANKTOS

#### Admiralty Lawyers Avast !

#### Here be a new Tort: Carbon Offset Piracy

**The Black Spot stalks the carbon footprints of Planktos Corporation, last seen trying to inflict a hotfoot on the shoes of the fisherman.**

**Climateer reports the scalawags may have added a new misdemeanor to the annals of Admiralty Law : Carbon Offset Piracy. Having promised more carbon uptake by seawater than could plausibly be delivered by shoveling rust over the transom of the cockleshell research vessel that is the main asset of the Enterprise, this merry crew has made off with the corporate flagship.**

**The yacht *Weatherbird II* possibly purchased with proceeds from scamming the faithful into greening the Vatican , has sailed out of sight of its creditors'**

**Hence Climateer is asking :**

#### **Is Something Very Wrong With Planktos?**

*Planktos is thirteen days past the date on which their 3rd quarter financials were due at the Securities and Exchange Commission. This is odd for a few different reasons. 1) The company has no revenues...2) Planktos has moved its only tangible asset, the good ship Weatherbird II, outside of U.S. jurisdiction. The boat is carried on the balance sheet at \$796,727... PLKT also showed a \$797,194 receivable, probably not from operations (they have no sales)...*

**The marine saga continues-- Last week the Spanish papers reported *Weatherbird II* had hightailed it for High Barbaree, Agadir to be exact, but now she is in Madeira, having been refused entry at Las Palmas on a claim of medical emergency due to , you guessed it, plankton poisoning.**

**The most recent account from the Spanish Mainsteam press, in *El Publico*, says Cap'n George wants the EU & Spain to pay Planktos to investigate the "Cigatura Crisis " it claims to have discovered en route to nowhere. Is this El Ultimo Suspiro Del Alabatroz , or will the conversion of cutlass rust into Sargasso blossom into the Treasure of the Indies ? The smart as paint money is laying two doubloons to a pottle of grog that these lascaradoes will end up keelhauled.**

#### **POSTSCRIPT 19 December:**

**Before the Securities & Exchange Inquisition could locate a comfy chair, or His Spanish Majesty's Admiralty a handy yardarm, Planktos announced it would attend to Suspending Operations itself.**

#### **3 January: They seem to have deep sixed their obligation to The Vatican**

Stay tuned - they may yet be seen sailing in company with the gonzo French Nobel laureate who believes in the biological transmutation of iron into manganese? There be a process promising great riches in synergy with cold fusion, as the two might convert ironic phytoplankton into manganese nodules .

**Technetium fertilization futures may be the Next Big Thing--a boiling Strangelove Ocean full of mutant squid could revolutionize carbon permit trading strategies--there is always business in great waters.**

.....*They had a plan too*>

I count four turns of phrase (in the first 37 words!) which I, with jocundity aforethought, shall purloin:

1) "Walking the Planktos"

2) "Here be a new tort: Carbon offset piracy."

3) "...a hotfoot on the shoes of the Fisherman"

And the erudite R.L. Stevenson ref.,

The Black Spot.

I, like Gladstone, could find myself staying up 'til two with Jim and Smollet and Silver.

"Join in the chantey and grab a draught!"

RESPONSE

A jocular keelhauling may sober the scurvy Climateer-

Thanks for adding the new information, as well as your analysis. This is why your blog is one of the few I read that I also ever bother to comment on. I don't do it to hear myself talk - I do it because I know you actually listen.

Ugg boots typically has a unique glimpse from other kinds of boots. It is in fact this distinctive glimpse that makes it stand out inside the crowd. The expression ugg is truly the shot for ugly. Thus ugg boot in simple fact meant unsightly boot. But these days these boots are no longer deemed as unpleasant, they are moreover thought of as one with the most fashionable and snug footwear from the style industry. Just imagine walking miles on an undulated terrain in a pair of higher heels! What would be the result?

Scarlett shot a look of sharp suspicion at her, but Mammy's broad face carried only a look of innocence and of regret that Scarlett was not the lady Melanie Hamilton was.

Put down that tray and come lace me tighter, said Scarlett irritably. And I'll try to eat a little afterwards. If I ate now I couldn't lace tight enough.

Cloaking her triumph, Mammy set down the tray.

certain liens sont chopés sur des redirections existantes type feedburner avant d'être passé par le raccourcisseur.

Bref, entre le nofollow et les redirections sur redirections, je peux certifier que le backlink est totalement mort.

Encore une fois, un lien doit être conçu d'une manière particulière afin d'être pondéré et les liens sur Twitter n'apportent absolument rien dans ce sens.
