Can you send me something to back this up?

Thanks,

Steve

The person to contact for confirmation would be the affected faculty member [REDACTED] - he is currently at [REDACTED]. The package of relevant information is marked confidential but [REDACTED] may feel free to release the same. He has gone on record recently (5/22/07?) with the J&C as stating he still feels threatened for retribution.

Rusi

Dear [REDACTED],

I am going through data which I have received from Rusi that requires fact-checking. In this case, Rusi has alluded to "a junior faculty member" having a grievance against Tsoukalas.

However, if you would like to provide me with your own first-person comments...I can most likely, and would like to include your views and facts in my investigation.

I will hope to hear back from you on Tuesday, after the memorial day holiday.

Best regards,

I prefer not to be quoted in any more press stories.

I am willing to confirm that I filed a grievance. That process is confidential and I do not want to compromise the confidentiality of the various players in the process.

[REDACTED],

Can you tell me if the grievance is now resolved?

Thanks,

Steve

Hi Steve:

I withdrew the grievance at Purdue and left the university. I was offered a resolution that I could not accept and I decided it was in my best interest (and my

families' best interest) to move on. I am now on a real tenure track and therefore would like to minimize my visibility in the media.
